1. IRB Member (Protocols for Review)

When you open your Reviewer Home Page, you will see a table labeled IRB Member (Action Items). This table is divided into 6 sections NEW, AMENDMENT, CONTINUING REVIEW, REPORT, DEVIATION, and FINAL REPORT. These sections reflect the types of submissions that may be received for review.

- Each section can be collapsed and re-opened by clicking on the arrows in the table on the right.
- Information in these sections can be sorted by clicking on the column title.
- Protocols for Full Board review are highlighted.
- Protocols for Expedited review are not highlighted. Usually, only the CPHS-1 and CPHS-2 Chairs and Vice-Chairs, and the Prisoner Representative receive protocols for Expedited review.

Once you have completed review and recommended a protocol for approval, or sent a comment to the Analyst, the protocol will move from Action Items to Protocols for Review at the bottom of the reviewer homepage. Once the Analyst processes the approval, the protocol will disappear from your panel.
2. **Role**

The Role column shows your role in relation to the review of the protocol. There are three possible options:

- **NPR** – This stands for Non-Primary Reviewer. It means that you will be present for the review and discussion of the protocol, but have NOT been assigned as Primary or Secondary Reviewer.

- **Presenter** – This means that you are Primary Reviewer and Presenter of the protocol.

- **Reviewer** – This means that you have been assigned as Secondary Reviewer of the protocol.

3. **Protocol Event**

The Protocol Event column reflects the current status of the protocol. The two listed below call for action by the Reviewer.

- **Assigned as Reviewer** – This signifies that the submission has been assigned to the Reviewer(s) for the first time. The Reviewer can at this time click on the link and enter comments or recommend approval.

- **Responses Received (Cycle #)** – This signifies that comments from the Reviewer(s) were sent to the Investigator and responses have been received. The Reviewer can at this time click on the link and enter comments or recommend approval.

4. **Panel**

The Panel shows the name of the panel to which the submission has been assigned. The Full Board review panels are CPHS-1 and CPHS-2. For Expedited review panels, the panel is named after the OPHS Analyst processing the submission.

5. **Meeting Date**

Every protocol has to be assigned to a Meeting Date. For Full Board protocols, this is the date at which the committee will convene to review the protocols. For Expedited protocols, this date is essentially meaningless and can be ignored.
